

UV128 USB FLASH DRIVE

## ENJOY THE MAGICAL SPEED OF USB 3.2

### UV128 USB Flash Drive

The sleek design features a sliding USB connector, which smoothly extends from the drive at the push of a thumb. The capless mechanical design eliminates the hassle of lost drive caps. The USB connector can be made ready for use with just one hand, for greater convenience when speed is a must.

#### High-Speed USB 3.2 Interface

Now there is no reason to shy away from the higher cost of the USB 3.2 Gen1 interface. The UV128 brings the convenience and speed of premium USB drives to budget-minded consumers.

#### Easy Thumb Activated Capless Design

The USB connector is concealed in the compact body, fully protected without the need for a drive cap. A simple thumb swipe forward makes it ready to use, and the reverse motion stows the connector for storage or travel.
